

Carbon Reduction Plan

Soluvos Medical Limited is committed to leading the industry in minimising the impact of its activities on the environment. The key points of its strategy to achieve this are: Minimise waste by evaluating operations and ensuring they are as efficient as possible.

Soluvos Medical recognises that climate change has a sustained negative impact on our lives. Young and vulnerable people are particularly affected by carbon emissions that can impede their well-being. We're committed to working in partnership with others toward positive environmental impact by ensuring areas of our activities have a long-lasting effect. As such, we are committed to achieving net zero by 2050.

As we are opening our first office in the UK as of December 1, 2023, we will set clear targets and implementing initiatives to reduce our carbon emissions, we will calculate our footprint based on year ending 2024.

Current year scope ending 2024

Emissions		Total tCO ₂ e	%
Scope 1	Direct emissions from sources controlled by Soluvos Medical Ltd - emissions from combustion of vehicles	11.43	85.88
Scope 2	Indirect emissions associated with the purchase of electricity	0	0
Scope 3	Other indirect emissions. A consequence of activities from sources not owned or controlled by Soluvos Medical Ltd	1.88	14.12
Total Emissions		13.31	100%

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

- Make driving more efficient
- Reduce business travel and adopt a sustainable travel policy.
- Reduce the usage of electricity and waste
- Promoting Environmental Management System
- Reduce the use of non-recyclable materials
- Replacing electrical devices with energy efficient devices

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off the CEO of Soluvos Medical Ltd

A handwritten signature in black ink, appearing to read "R. Henrichs", is written over a horizontal line.
